Catalogue 2019

## Natural Elements and Furniture since 2008

We work in collaboration with architects, scenographers, decorators, landscape designers, creators, but also with individuals in search of decorative objects with pure and contemporary forms.

Our activity is based on the collection, processing and marketing of driftwood collected on the French coast. The trunks, branches, roots, stumps, boards represent a very complete range and allow us to meet your different needs. Natural elements from all over the world complete our collection in an original way. This is regularly enriched with new products.

Enjoy your discovery!
